OneStop KWC

CONTRACTOR PLATFORM STANDARDS GUIDE

Kitchener – Waterloo – Cambridge, Ontario

This guide describes the outcomes and expectations that support customer trust on the OneStop platform. It supplements the Independent Contractor Services Agreement (ICSA) and does not replace it. Where this guide and the ICSA conflict, the ICSA prevails.

Nothing in this guide prescribes the Contractor's work methods, schedule, route, tools, or approach. The Contractor retains full discretion over how to achieve these outcomes.

1. About OneStop KWC

OneStop KWC is a Waterloo-based platform that connects homeowners with vetted, independent service professionals across Kitchener, Waterloo, and Cambridge. We handle marketing, customer intake, scheduling, and payment processing so that contractors can focus on delivering quality work.

Our customers choose OneStop because they trust that every contractor on our platform meets a high professional standard. This guide describes what those standards look like in practice.

2. Platform Values

These values describe what OneStop stands for as a platform. Contractors who share these values tend to build the strongest customer relationships and receive the most referrals.

Continuous Improvement	Every assignment is an opportunity to refine your craft. The best contractors on our platform consistently look for ways to deliver better outcomes.
Respect	Customers, fellow contractors, and OneStop staff all deserve professional courtesy. A customer's home is their most personal space.
Accountability	Own the outcome. If something goes wrong, follow the Property Damage Protocol, communicate promptly, and work toward resolution.
Professionalism	Arrive prepared, deliver quality work, and leave the work area in good condition. First impressions and final impressions both matter.
Integrity	Be truthful about your skills, experience, availability, and what happened on a job. Trust is the foundation of everything we do.

3. Customer Experience Outcomes

These outcomes describe what customers expect from every assignment booked through OneStop. How you achieve them is up to you.

Before the Assignment

The customer expects a contractor who has reviewed the booking, confirmed they have the right skills and equipment, and is prepared to begin work on arrival. If you need to coordinate anything (access, materials, timing), do so before you arrive.

During the Assignment

The customer expects the contractor to confirm the scope before starting, work within the approved scope, handle their home and belongings with care, and communicate if anything unexpected arises. If you identify pre-existing damage, document it with photos and notify OneStop before beginning the affected work. If additional work is needed beyond the original scope, get the customer's authorisation and notify OneStop before proceeding.

After the Assignment

The customer expects to review the completed work before the contractor leaves. Confirm completion with OneStop. The work area should be left in no worse condition than when you arrived. Remove any waste, debris, or packaging you generated.

4. Customer Privacy and Home Access

You are entering someone's most personal space. The customer's trust in you — and in OneStop — depends on how you conduct yourself in their home.

Expected Outcomes:

- Handle all belongings with care
- Only access areas relevant to the approved scope of work
- Maintain complete confidentiality about anything observed in the home
- Never photograph, record, or share details of a customer's home beyond assignment documentation
- Be courteous, professional, and respectful of the customer's time and space

5. Time-Sensitive Bookings

OneStop may offer assignments with a target arrival window. You are free to accept or decline any such booking. By accepting, you are confirming that you reasonably expect to arrive within the stated window. If you accept and then realize you may not make it, notify OneStop as soon as possible so we can manage expectations or reassign if needed.

Repeated inability to meet accepted time-sensitive bookings may be considered when offering future referrals.

6. Property Damage

If something gets damaged during an assignment, follow the Property Damage Protocol in Section 6 of the ICSA:

1	Stop the affected work and document the damage with photos from at least two angles.
2	Notify OneStop within 24 hours with photos and a written description.

3	Do not offer the customer money, a discount, or a side repair. Do not admit fault.
4	Cooperate with OneStop and your insurer to resolve the matter.

This protocol protects you, the customer, and OneStop. Attempting to resolve damage directly with the customer may jeopardise your CGL coverage.

7. Platform Non-Negotiables

These behaviours will result in immediate suspension or termination, per Section 19.3 of the ICSA:

- ✖ Theft, fraud, or dishonesty of any kind.
- ✖ Violence, harassment, intimidation, or discrimination.
- ✖ Entering a customer's home without a confirmed OneStop booking.
- ✖ Contacting customers directly to bypass OneStop's referral role.
- ✖ Sharing a customer's personal information with anyone.
- ✖ Misrepresenting your skills, experience, licensing, or insurance status.
- ✖ Sending an unapproved individual to a customer location without proper screening.
- ✖ Concealing property damage or attempting to settle it directly with the customer.
- ✖ Allowing your CGL insurance or WSIB documentation to lapse without immediate notification.

8. Bookings and Payment

All assignments are booked, managed, and paid through OneStop. This ensures customer protection, proper documentation, and insurance coverage. After completing an assignment, confirm completion with OneStop. Payment is issued within five (5) business days via Interac e-Transfer. Full payment terms are in Sections 7 and 8 of the ICSA.

9. Communication

Email	OneStopKWC@gmail.com
Website	onestopkwc.ca
Phone	(519) 722-9057
Service Area	Kitchener – Waterloo – Cambridge, Ontario
Response Time	Within 2 hours during business hours

Important Notice Regarding Your Status

This guide is provided for reference and does not create, modify, or replace the ICSA. You are an independent contractor, not an employee of OneStop KWC. You control the manner and means of your work. You are free to accept or decline any assignment. Nothing in this guide prescribes your work methods, schedule, or approach. Your relationship with OneStop is governed by the ICSA.

OneStop KWC

You are not just a contractor. You are the standard.
